FOR IMMEDIATE RELEASE

Rehabilitation Work on State Route 299 in Redding in Winter Suspension

REDDING – The California Department of Transportation (Caltrans) has suspended work on the \$9.5 million Eureka Way Rehabilitation Project on State Route 299, for the winter. Construction will resume, weather permitting and there is an extended period of dry conditions. Once work continues, projected completion is anticipated to take three weeks, with the necessity of one weekend closure.

The final phase includes concrete pavement reconstruction at the intersection of Pioneer Street and Eureka Way and the intersection of Court Street and Eureka Way, up to the overhead structure. Concrete pavement construction of all crosswalks on Eureka Way, pavement grinding for a smoother surface from Pioneer Street to Court Street and miscellaneous clean-up work.

The project extends from Iron Mountain Road, west of Redding, to Court Street, and has included pavement sawcutting, jackhammering, concrete curb, gutter and sidewalk installation or replacement, drainage and underground pipe replacement and traffic signal improvements and upgrades.

Motorists are asked to reduce their speed and drive with caution when approaching the construction zone.
